Projects

Portfolio

Interactive retro adventure portfolio Designed a playful campus map where visitors explore different parts of a student portfolio through mini-games and missions.

Explore CGC

An open-world campus exploration game where players can freely roam around CGC University, explore its surroundings, and take part in activities.

Hackathon Project

A hackathon project focused on AI innovation.

QuizN

A small quiz application for taking short quizzes.

CoderXHub

A small community site where developers can share, post, and download reusable website templates.

HeWrites.blog

A blog for storytelling, personal writing, reflections, and ideas.

Clarifake

A website concept for examining whether photos, videos, or audio may be AI-generated. It analyzes visual signals such as pixel intensity, checks for matching media and source context on the web, and returns a confidence score.

bhagwayehind.in.net

A blog and website about ancient India and its history.

And many more...
